

The mission of the Matthew Foster Foundation is to assist Western New York families with a child that is battling cancer. The Foundation provides financial assistance to cover some of the families extraordinary costs. The assistance is for various needs the family requires during their battle with this dreadful disease including medical, utility, mortgage, food, gas, and travel expenses. In 2009 we provided over \$105,000 of assistance to 49 different families.

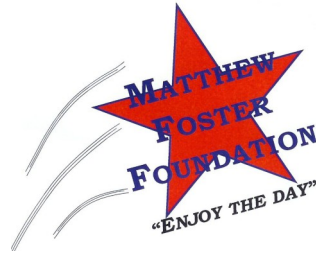

One of our objectives is to let the families who are engaged in the childhood cancer battle know that people in the WNY community care about them.
